BAUR
ANTRIEBE
UND
REGELUNGEN

Reference: Company transfer, subsequent regulation

Date: 08.01.2018

Dear valued customer,

BAUR Antriebe und Regelungen was transferred at date 2018.01.01 to company **Middex Electronic GmbH** in case of long term planed subsequent regulation. BAUR und MIDDEX are active since many years in the field of motion control technics, especially stepper motors including power drives. Merging the two companies the product portfolio and market presence was extended. Not at least the long term delivery reliability of BAUR products could be ensured.

The company MIDDEX-Electronic is well known for high quality and innovative electronic development in the field of machine tools monitoring and motor controls. Together with your support we will continue this strength and growing up the business continuously.

Middex fully takes over the business of BAUR Antriebe und Regelungen, whereas Mr. Baur is still supporting the company MIDDEX in future.

All active purchase and blanket orders as confirmations are transferred to MIDDEX and will be fully fulfilled in the well-known quality and reliability.

Please use following correspondence immediately to

Middex Electronic GmbH, Rheinwaldstraße 22, 78628 Rottweil (www.middex.de)
